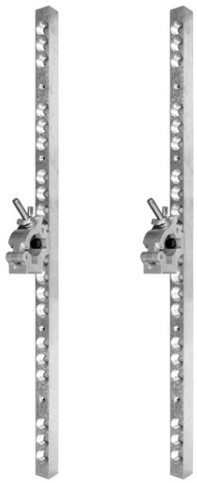
The Light Source

Plasma Universal Mount with QC1.5 Couplers



The Plasma Universal Mount supports a plasma or LCD screen on a pipe, 12", or 20.5" Truss. One Quad-Coupler 1.5 is provided to fasten per mount. The two mounting bars are bolted directly to the plasma screen with two 8mm or 10mm bolts per bar. The support bolt holes are drilled for the 50, 100, 150, 200, 300, 400, 600 mm VESA Standards. Priced per set.

A set consists of two mounting bars and two Quad-Coupler 1.5's, one for each bar. The 8mm or 10mm bolts used to attach the bars to the screens are not included.

The Plasma Universal Mount is available in silver or black finish. A version to fit Global truss is also available.

Dimensions	28" x 3" x 1"
Case Quantities	Sold as a Pair
