Mega-Turnbuckle 3-5 with Jaw

The Mega-Turnbuckle 3-5 with Jaw is CNC machined from aircraft aluminum. The Vertical Design Load for the Mega-Coupler with Clevis attachment (MLM-CLEVIS COMBO) is 1100 lbs. The design is intended to have a load attached to a 3/8" pin (by others) running through the clevis portion of the combo.

The Mega-Turnbuckle itself has an adjustment range of 3" to 5".

Working Load Limit	1100 Pounds
