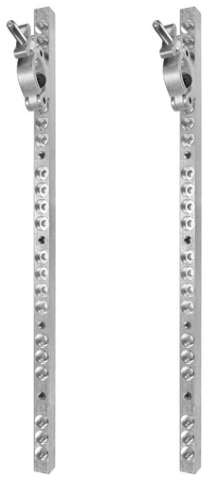
The Light Source
Plasma Universal Mount Set



The Plasma Universal Mount supports a plasma or LCD screen on a pipe, 12", or 20.5" Truss. One Slim-Coupler is provided to fasten per mount.

The two mounting bars are bolted directly to the plasma screen with two 8mm or 10mm bolts per bar. (Bolts are not included.)

The support bolt holes are drilled for the 50, 100, 150, 200, 300, 400, 600 mm VESA Standards.

Priced per set, a set consists of two mounting bars and two Slim-Couplers (MSCM-1/2CS).

The Plasma Universal Mount is available in silver or black finish. A version to fit Global truss is also available.

Working Load Limit	250 Pounds
