M-140 Cyc Track

The M-140 Cyc Track is a walk along studio/stage curtain track with rounded edges and is fully compatible with the H&H 300, and the ADC 140 style tracks. Track should be supported every 4-5 feet. A complete system of hangers and splices is available to make installation quick and easy. Machine rolled corners are available to your radius specifications.

Track is sold in 10' or 20' lengths. We will cut it to any size you need. Curved track available below and can be done in black too.

Track is priced per 20 foot pieces.
