## 16" Mega-Beam Clamp - 3 Ton

The Mega-Beam Clamp is a low profile, sliding jaw design that allows the load to be secured as closely as possible to the I-beam. The 16" model is load rated for 3 tons.

Two aircraft aluminum jaws are adjusted on the 3/4"-6 TPI Acme threaded shaft. The spring loaded handle locks after adjustment. The center hole is 1 1/2".

The 16" Mega-Beam Clamp fastens from 2" to 16" wide on I-beam flanges up to 1" thick. For I-beam flanges up to 2" thick, Mega-Beam Clamps are available with 2" jaws. The 2" jaws may also be purchased separately.

The aluminum construction is half the weight of steel units and has a wider gripping range.

The Mega-Beam Clamp can be used for both permanent and temporary installations.

**Working Load  
Limit**

6000 lbs / 2720 kg

**Dimensions**

22.5" L x 7.5" T x 2.75" W; Center Hole -  
1 1/2"

**Weight**

15.20
