## Mini-Universal Plasma Mount

The Mini-Universal Plasma Mount offers a smaller profile option for small Plasma or LCD screens.

The Mini-Universal Plasma Mount fits pipe and 12" truss. The two mounting bars are bolted to the screens with two 8mm or 10mm bolts per bar. (The 8mm or 10mm bolts are not included.)

The support holes are drilled for the 50, 100, 150 and 200 VESA standards.

Each bar is 11" long with one Mega-Slim Coupler (MSCM-1/2CS) attached to each bar. Sold as a set, the Mini-Universal Plasma Mount comes with 2 bars and 2 Mega-Slim Couplers.

The Universal Plasma Mount-2 comes with two Mega-Slim Couplers per bar. Sold as a set, the Universal Plasma Mount-2 comes with 2 bars and 4 Mega-Slim Couplers.
