## Mega-Gridlock

The Mega-Gridlock is designed for permanent installations in studios and theaters. It joins 2 overlapping pipes together in a 90 degree joint. The side grooves act as a wrench, keeping the nut from turning during installation.

Fastens any combination of 1-1/2" pipe (1.9" OD), 1-1/4" pipe (1.66" OD), and 2" OD Tube. (Tight fit on 2" OD tube)

Tighten the bolts to 11 foot pounds, which is about as tight as can be done with a 6" hex key wrench.

See the Spare Parts Section to purchase Hardware Packs or Mega-Gridlock Halves.

<b>Minimum Size</b>	1.25" pipe, (1.66" OD)
<b>Maximum Size</b>	1.5" pipe, (1.90" OD), 2" OD tube
<b>Working Load Limit</b>	1250 lb 568kg
<b>Hardware</b>	4 each – 5/16" × 2" socket head cap screws 4 each – 5/16" Nylock nuts
<b>Dimensions</b>	3.65" × 3.65" × 4.375 tall max (.375" plus the thickness of the 2 pipes joined.)
<b>Weight</b>	1.03 lbs.
<b>Case Quantities</b>	12
