The Light Source  

**Mega-Gridlock**

Designed for permanent pipe grid installations in studios and theaters. Joins 2 overlapping pipes together in a 90 degree joint. Grooves act as a wrench holding the nut from turning while installing. Installs with a hex key tool in a battery drill.

Fastens any combination of 1-1/2" pipe (1.9" OD), 1-1/4" pipe (1.66" OD), and 2" OD Tube. (Tight fit on 2" OD tube)

The Mega-Gridlock can be used on curved track down to a radius of 3 feet (or a circle with a diameter of 6 feet).

Tighten the bolts to 11 foot pounds, which is about as tight as as can be done with a 6" hex key wrench.

**Minimum Size**  
1.25" pipe, 1.66" OD pipe

**Maximum Size**  
1.5" pipe, 1.90" OD pipe, 2" OD truss tube

**Working Load Limit**  
1250 lb 568kg

**Hardware**  
4 each – 5/16” × 2” socket head cap screws
4 each – 5/16” Nylock nuts

**Dimensions**  
3.65” × 3.65” × 4.375 tall max (.375” plus the thickness of the 2 pipes joined.)

**Weight**  
15 oz

**Case Quantities**  
12
